*yacht cushions
in perfection*

Your specialist in yacht cushions

The design of a yacht expresses its owner's personal style. This is particularly true of the indoor and outdoor equipment. For more than 50 years it has been our aim to combine comfort and design on the highest level of craftsmanship.

Quality

Our team of competent specialists produces yacht cushions of exceptionally high quality. Modern materials and high-quality workmanship help to maintain our standard and allow a maximum of creative freedom.

and completion on schedule

Our customers are involved in the project from the moment of measurement to the final completion. At the same time we take it for granted that we keep to the schedule. By combining the most modern materials we develop a product which can be designed according to your wishes and meets the specific requirements of water sports.

For not only the design is to comply with our customers' wishes, but also must the cushions meet the high requirements concerning function and ergonomics.

to satisfy our customers!

Our range of customers includes private boat owners as well as professional firms equipping big yachts.

Cushions are seldom exposed to such extreme environmental conditions as in water sports. We attach great importance to the quality of workmanship and the quality of the materials used in the process of manual production to comply with any durability requirements.

The following reference objects provide a first insight.

Your specialist in covers and tarpaulins

For more than 20 years we have been familiar with the challenge of manufacturing covers and tarpaulins. Your ideas are combined with our huge knowledge and experience and are thereby perfected. We solely use the best materials offered on the market. Yachts are thus equipped with a high-quality product concerning material and workmanship.

1. The foam core is adjusted to the model of a curve.

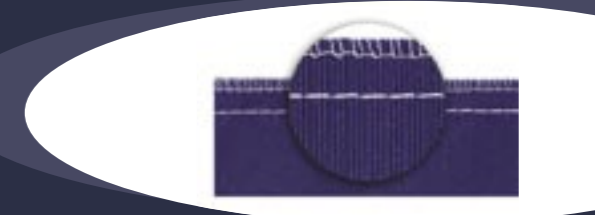

2. The multi-layered structure of the cushion guarantees solidity and seating comfort at the same time.

3. Lamination with diolen padding provides comfort as well as a perfect fit of the cover.

4. The precisely fitting shape of the cover pieces is checked on the completed workpiece.

5. Extra stay stitching of the fabric edges guarantees a long life span.

6. 1. The completed cushion on the curve model.
